## SKILLS

- WebDesigning  
(HTML,CSS,JS)
- Intermediate Proficiency  
(C++ )
- Familiar with IoT devices  
(Arduino and Raspberry Pi)
- Project Management
- Problem-Solving
- Teamwork
- Time Management

## INTERESTS

- Coding and solving algorithmic problems
- Building DIY electronics projects with Arduino
- Playing badminton
- Exploring new technologies and gadgets

## PROFILE

Motivated and ambitious web developer and second-year BSc Computer Science student at DEI University, with hands-on experience in C++ programming through an internship at Codsoft. Passionate about technology and innovation, I am driven to explore areas like Programming, IoT, and Web Design, where theoretical knowledge meets practical application. I am committed to continuous learning and contributing to innovative projects in the tech industry.

## WORK EXPERIENCE

**C++ Programming Intern**  
CodSoft

15/09/2024- 15/10/2024.

- Developed and implemented C++ programs to solve real-world problems, enhancing my understanding of core programming concepts.
- Gained hands-on experience in object-oriented programming (OOP) principles, including classes, inheritance, polymorphism, and encapsulation.
- Worked on data structures and algorithms to optimize code efficiency and improve problem-solving skills.
- Collaborated with peers and mentors to debug, test, and refine code, ensuring high-quality deliverables.
- Completed projects such as [mention specific projects, e.g., a student management system, tic-tac-toe game, etc.], showcasing my ability to apply theoretical knowledge to practical applications.
- Improved skills in logical thinking, debugging, and code optimization through regular feedback and code reviews.

## EDUCATION

### Bachelor of Computer Science

Dayalbagh Educational Institute

A second-year undergraduate student pursuing BSc Computer Science course at DEI University. It is technology and innovation that has motivated me to climb new heights. I am aspiring to learn the various areas of programming, IoT, embedded systems, and web designing where theoretical knowledge is applied through practicality.
